

PHARMACEUTICAL QUALITY ASSURANCE - COMPLAINT REPORT

Form QMS-QA-089 / Regulatory Customer Incident Intake

Customer / Facility:	Medico Pharma Labs Ltd.	Date Received:	2026-09-10
Product Name:	Metformin hydrochloride API	Grade / Strength:	IP/BP
Batch / Lot Number:	MFH260712A	Quantity Affected:	100 kg (4 HDPE drums)
Manufacturing Date:	2026-02-10	Expiry Date:	2029-02-09
Complaint Classification:	Packaging Defect / Seal Integrity	Intake Source:	Field Quality Incident Report

Detailed Incident & Defect Description:

During raw material incoming quality control inspection of Metformin hydrochloride API, lot MFH260712A, our receiving warehouse noted that 2 out of 4 HDPE drums had broken tamper-evident seals and breached inner polyethylene liners. Possible foreign particulate ingress and moisture exposure noted.

Immediate Corrective Actions Requested:

- 1. Request immediate quarantine advisory for batch lot in central repository.
- 2. Issue Return Material Authorization (RMA) and arrange pickup of affected drums for QC investigation.
- 3. Expedite replacement shipment to prevent API formulation downtime.
